RETAIL PRODUCT GUIDE 2021

BEGA NATURAL CHEESE

Bega natural cheese is crafted daily, from milk sourced directly from the finest dairy farming regions in Australia, and transformed into delicious award-winning cheese using our own special recipes.

As our cheese ages, our expert cheese graders determine batch by batch when the cheese is at its perfect maturity to meet our consumer expectations. Upon selection the cheese is cut, sliced or shredded and packed into convenient sizes ready for use.

ABOUT BEGA CHEESE

The Bega brand is one of Australia's most successful and trusted dairy brands.

From milk, cream and butter, through to cream cheese, processed cheese and a variety of natural cheeses, Bega is enjoyed by millions of Australians and consumers around the world.

Its popularity is because only the finest Australian dairy gets to bear the Bega brand name. We use milk from the lush, green pastures from some of Australia's most fertile farming regions and then transform it into delicious award-winning dairy products using our own special recipes.

With over 100 years of experience and knowledge, our dedicated cheese makers, product developers and manufacturing experts ensure that Bega products are of a consistent high quality.

Bega is made by the Bega Cheese Group. Established in 1899, we've grown to one of Australia's leading dairy companies. Bega Cheese is publically listed on the Australian stock exchange.

We manufacture and export an extensive range of natural and processed cheese, as well as other dairy products to more than 40 countries worldwide.

To a large extent, we export the same great products as we sell in the Australian market, where Bega is the No. 1 selling brand of cheese.

We do however tailor make cheese products to suit particular international requirements and meet consumer needs.
