# About us

Established in 2013, FMC began initially as a marketing/sales arm for Prima Fresh Fruit™, since expanding its operations in integrated farming & packing operations. The business is responsible for the sales of over 1 million units of produce each year, selling some of Australia's best; apples, pears, peaches, nectarines, apricots, plums, cherries, citrus, melons & some vegetable products. FMC director Bruno Muscatello is now the 3rd generation of the Muscatello family to be involved in the fresh produce industry.

# Our team

## **BRUNO MUSCATELLO**

Bruno commenced his journey in produce at a very young age working in the family business during his spare time & school holidays, from here completed his studies at Univeristy whilst working as the National Sales Manager for the Batlow Fruit Cooperative (one of Australia's largest apple producers) in early 2013 when an aquisition of the Kaarimba property took place. Bruno assisted in the purchase of this property along with the Prima Fresh Group, from here FMC was born.
