Infused Oils, Powders, Flours, Fermentations*

ZERO ALCOHOL WINE POWDER DATA SHEET

Botanical Innovations has developed a unique range of wine powders which retain the flavour of the wine they were made from without the alcohol. These powders are made from wine. These powders are not low alcohol substitutes. Wine powders are made from wine that has undergone a traditional oenology (wine making) process that is vinification of wine, starting with the selection of the fruit, its fermentation into alcohol, finishing and bottling. The raw material is good wine. The alcohol is then gently removed via proprietary technology and dried to ensure the flavour and aroma of the wine remain.

ZERO ALCOHOL WINE WITH DEPTH, FLAVOUR AND AROMA OF WINE.

Shiraz Powder
Pinot Noir Powder
Cabinet Sauvignon Powder
Tawny Port Powder

Sparkling Brut Powder
Chardonnay Powder
Reisling Powder
Savignon Blanc Powder

Aroma The aroma of the wine they were made from.

Zero Alcohol All the alcohol is removed during the drying process

Taste The taste of a good wine.

Functionality Add flavour, aroma and depth to food and beverages without the alcohol.

Nutraceutical Benefits Botanical Innovations wine powders contain natural polyphenols. The wine powders capture the proanthocyanidins and resveratrol in wine without the alcohol.
