THE BROOKFARM STORY

Founded by Pam and Martin Brook in 2000, Brookfarm is a generational family business committed to Australian farmers, independent retailers, sustainable agriculture and regional food production of the highest quality.

Whist Pam and Martin are still heavily involved in the business, their eldest son Will Brook leads the company, with Brookfarm's long-standing philosophy unwavering; promoting generational health and wellbeing by producing real food that can be enjoyed by the entire family.

Brookfarm's macadamia orchard bathes in the stunning sunlight of the Byron Bay hinterland, on the east coast of Australia.

On a sunny day, Brookfarm's state-of-the-art bakehouse is powered by 288 solar panels and for the past 30 years, the Brook family have been restoring an ancient rainforest which lays at the heart of the family farm.

The rainforest is full of wildlife and natural predators to pests, Brookfarm is a great example of sustainable farming and natural balance.

OUR VALUES

- Australian made
